INTERESTS	Macroeconomics and Public Economics	
RELEVANT RESEARCH EXPERIENCE	Dynamic Aspect of Family Transfers under Gender Preference: Evidence from China <i>University of Wisconsin Madison</i>	Sept. 2021 - Feb.2022
	• Advisor: Professor Christopher Taber • Created panel data of CHARLS based on children to explore the effects of children's gender on parents' transfer in China. • Used family-fixed-effect and children-fixed-effect to handle selection bias on family and unobservable characteristics of children.	
	The Effect of Moving on Residents' Consumption (Spring Research) <i>University of Wisconsin Madison</i>	May 2021 - July 2021
	• Advisor: Professor Jesse Gregory • Studied the effect of moving on residents' consumption based on PSID panel data using the event-study method. • Used fixed effects to address the selection bias, focusing on families that moved once or never moved.	
	Parental Transfer and Job Search of College Graduates: Evidence from Undergraduates in Some Universities <i>Shanghai University of Finance and Economics</i>	Dec. 2018 - Apr. 2019
	• Mentor: Professor Liu Tian • Conducted independent research on the impact of parental transfer on job search among college graduates. • Completed a research report using empirical analysis and questionnaires.	
	Study on China's Individual Income Tax Reformation on the Basis of Family-Based on the Survey Data of Urban Residents <i>Shanghai University of Finance and Economics</i>	Apr. 2016 - July 2017
	• Advisor: Professor Zhikuo Liu • Simulated the corresponding results in China and analyzed welfare changes and social influences under the current personal income tax system. • Received financial support from the Shanghai Ministry of Education, one of the top three programs funded among 66 participants.	

WORK IN PROGRESS	1. China Local Government Debt and Missallocation (Third year paper)	
	• Advisor: Min Fang, Eugenio Rojas, Jonathan Adams • The rapid growth of local government debt in China has led to an increased risk of partial defaults among municipalities. This rising demand for refinancing by local governments is crowding out private sector resources, resulting in financial market instability and productivity misallocation	
	2. Gender-biased Dynastic Precautionary Savings: Evidence from China (with Min Fang, Yuchen zhu)	
TEACHING (TA)	ECO7206 Macroeconomic Theory PhD	2024 Fall
	ECO6409 Game Theory Applied MBA	2024 Spring
	ECP 3703 Managerial Economics Undergraduate	2024 Spring
	ECO 3203 Intermediate Macro Undergraduate	2023 Spring , 2024 Summer
	ECO 6936 International Macro Graduate	2022 Fall
PROFESSIONAL SKILLS	Programming Languages: MATLAB, R, Stata, SPSS, Python (basic).	
	Certifications: ACCA (Association of Chartered Certified Accountants)
